Application: Application: Aplicación:

Mercedes ML320, ML350, ML430, ML500, ML55

Location of cabin filter:

On the passenger side of the vehicle under the dash behind an access panel.

To remove existing filter:

1. Locate the access panel under the glove compartment on the passenger side of the vehicle.
2. Locate and remove the fasteners retaining the panel and lower the panel down.
3. The cabin filter access door is now visible, unhook the retaining clip that secures the door and remove the door from the housing.
4. Pull out the dirty filter and replace making sure to replace with the airflow directional arrows positioned properly.
5. Reverse steps to complete installation.
