Application: Application: Aplicación:

Volkswagen Eurovan

Location of filter:

Under the hood in front of the windshield behind the cabin filter access door on the passenger side of the vehicle

To remove existing filter:

1. Open Hood.
2. Locate the cabin filter housing and remove by releasing the clips that secure the door closed.
3. Remove the housing and the filter from the vehicle.
4. Remove the dirty filter and replace with clean filter.
5. Complete installation by reversing steps 1-3.
