Application: Application: Aplicación:

Lexus IS300, RX300 | Toyota Highlander

#### **Location of cabin filter:**

On the passenger side of the vehicle behind the glove compartment behind the cabin filter access panel.

#### **Tools:**

Unknown or not required.

#### **To remove existing filter:**

1. Open glove compartment and carefully press in on each side of the glove compartment allowing the stops to pull away and allow the glove compartment to swing down.
2. Locate and remove the cabin filter door by pulling downward and towards you.
3. Pull out dirty filter and housing.
4. Remove dirty filter from housing by releasing the tabs to secure the filter to the housing.
5. Replace clean filter in housing. Remember to secure filter to housing with tabs.
6. Complete installation by reversing procedure.
