Application: Application: Aplicación:

Volvo S40, V40

Location of filter:

Under the glove compartment behind the kick panel, behind the cabin filter access door on the passenger side of the vehicle

Tools:

Unknown or not required.

To remove existing filter:

1. Locate and remove the two screws on the underside of the glove compartment that secure the kick plate.
2. Remove the kick plate.
3. Locate the cabin filter access door and unclip tab securing the door in place.
4. Remove the door.
5. Remove dirty cabin filter by pulling down and out.
6. Replace with clean filter.
7. Repeat steps 1-3 to complete installation.
