

## PROformance No Fault Warranty Terms:

No Fault coverage is an enhancement to the standard engine warranty that provides a guaranteed part replacement when a repair is not applicable and labor payment should a failure occur that is determined to be a non-manufacturing defect. No Fault guarantees part replacement and labor on the first such failure only - after which the standard SureFire warranty terms would apply for the balance of the warranty period.

- **Time and Mileage:**

- Light Duty Gas Engines for Personal Use up to 11,000 lbs G.V.W.: 3 Years/Unlimited Miles; Parts and Labor
