

CUSTOM MOLDED
CARGO LINER
Part No. XX855 Toyota Sequoia

Congratulations!

You have just purchased a fine, high quality product from Highland that will offer your vehicle the ultimate in cargo area protection for years to come. We are so confident that you will love this product, Highland makes this offer: Try our product for 30 days, and if you're not 100% satisfied, return the product, along with the original receipt, to the place of purchase for a full refund.

Helpful Hint: This Cargo Liner has been rolled for ease of shipment. To allow the Cargo Liner to unroll properly, simply leave out (logo side facing down) at room temperature for a few hours or overnight. It will return to its original shape.

Installation:

1. After the cargo liner has returned to its original flat position, simply insert it into the cargo area of the vehicle.
2. If your vehicle has three rows of seats, the following must be done for the third seat to be used properly with this cargo liner: Cut away the shaded areas on the liner surface (shown in Figure A) with a utility knife or scissors, as shown in Figure B.

Figure A

Cleaning:

- This Cargo Liner is resistant to most fluids. Use caution when transporting corrosive chemicals. Should a spill occur, remove the Cargo Liner immediately and rinse with water.
 - Remove heavy soiling by washing with a mild detergent and warm water. The Cargo Liner's bottom surface must be dry before re-installing in vehicle.
 - To keep the Liner gleaming, wipe with clean cloth and automotive vinyl or leather cleaners.
- Note: Use of cleaning fluids other than soap and water may make the surfaces slippery.
