

PRODUCT WARNING

TIMKEN
Where You Turn

SP580310 – March 2009

Subject: WARNING for Part Number Supersession – Product Labeling and Usage

Part Number: SP580310 (supersedes the SP580304, SP580305 and SP580306)

WARNING

This hub assembly is only suitable for 4X4 vehicle applications. It must not be used in 4X2 applications. If fitted to a 4X2 vehicle the vehicle's wheel will not be secure and will come off, creating a risk of death or serious injury.

The Timken Corporation previously advised that part number SP580304 has been superseded by SP580310, and further specified that the box could be re-labeled and placed into inventory. Part number SP580304 was originally intended for 4X4 applications and communicated as such.

The re-labeled SP580304 product must not be used in 4X2 applications since the wheel will not be properly secured by an axle nut. All 4X2 applications must utilize part number SP580310, which incorporates Timken® FORMED HUB™ technology.
